I don't know what I was thinking hanging around here
It's stuff like this
He's interesting
You can think whatever you want
He might be "interesting" but he's not fit to be leader
You think so?
That's what everyone has thought about every successive leader

First a counter-measure against our ghost member
Oh?
R has some items he wants to address!
Hey! Hey!
This leader doesn't avoid problems!
A counter-measure against the ghost?!

If one person sees that we have a ghost for a member, they will think we have 30 of them.
We don't know the ghost's comings and goings, so we have to catch it in one fell swoop.

Notes

Just as a warning, the first note is going to be a bit long and rambling, since it mildly involves something I have actually seen, and is not just something I am translating from a Japanese reference site. As such, I am going to inflict upon you a video recommendation--among other things. If you actually don't care for ramblings, just skip everything past the * sign in the note.

P. 134

The mysterious sun-glassed figure who makes his appearance in this chapter is based off Masami Yuuki's editor at Shonen Sunday, Takashi Fukuda, who gave Yuuki his first break. You can also see this character in an OVA called Assemble Insert as Chief Hatton.*
Speaking of Assemble Insert, if you enjoy this manga, then Assemble Insert is very similar humor-wise and it's even licensed! It's out of print, but cheap. If you want more info on the OVA, read the article on Assemble Insert on AnimeNewsNetwork's Buried Treasure column.
As a result of seeing Assemble Insert, this character is eternally voiced by Norio Wakamoto in my mind, even as I'm translating (actually, all the characters have voices, but that's from the audio dramas...) Another fun thing in Assemble Insert is the cameos. Masami Yuuki likes to put cameos of his other works in, so you can see R and Tosaka in the OVA.
The beginning of the OVA even features Kogaman, which we haven't gotten to yet, but it's this manga's very own sentai parody. And that's enough rambling for now.

P. 140

In Yuu Koyama's 1984 manga "Sprinter", this is how they introduced the character Tatsumi. Poor Hinoe.

I'd like to extend a great big thanks to everyone who reads R!
Last month, R jumped to 686th on the site! Not bad for a silly gag manga.
Thank you guys again for reading!
